EDUCATION

Villanova University

B.B.A., Management Information Systems & Business Analytics

Villanova, PA

May 2026

- **GPA:** 3.51 / 4.00

Relevant Coursework: Emerging Business Technologies, AI & Machine Learning for Business, Business Intelligence and Performance Management, Database Management, Programming for Adaptive Problem Solving, Data Mining and AI

PROFESSIONAL EXPERIENCE

JSO Partners

Wealth Management Intern

Blue Bell, PA

May 2025 – Aug 2025

- Analyzed client account data from Redtail and Fidelity Wealthscape using Excel to surface patterns by age, risk level, and asset type, helping advisors prepare more accurate follow-up actions and client reviews
- Supported directors during client meetings by capturing notes and resolving onboarding or documentation issues, ensuring clear follow-up actions and a smooth client experience

SAP America, Inc.

Customer Engagement Advisory Intern

Newtown Square, PA

Jul 2024 – Dec 2024

- Gathered and organized key customer data to improve workflow efficiency for front-office teams, contributing to faster response times across advisory operations
- Gained hands-on experience with SAP S/4HANA, learning how enterprise systems integrate data, AI, and workflow automation to support business operations

MILITARY EXPERIENCE

Republic of Korea Army – Joint Security Area

Operation Specialist, S3

Paju, Republic of Korea

Sep 2021 – Jul 2022

- Operated the Army Tactical Command Information System, processing real-time operational data to support the Battalion Commander's decision-making during critical missions
- Built trust among U.S. and Korean officers by supporting 100+ joint missions, ensuring clarity and operational alignment across teams

LEADERSHIP EXPERIENCE

Villanova International Student Organization

Career Development Chair

Villanova, PA

Jul 2024 – May 2025

- Represented SAP America as a panelist and guided international students on U.S. recruiting strategies, helping multiple peers secure CoOp roles
- Launched and managed a monthly career development newsletter in collaboration with Villanova's Career Center, connecting 200+ international students with resources and opportunities

PERSONAL PROJECT

Pathfinder

Productivity Tool (<https://www.pathfinder-app.xyz>)

Villanova, PA

Oct 2025 – Present

- Designed and built a personal time-tracking and insight platform using Next.js, TypeScript, and Supabase, enabling users to visualize how they spend time and identify their productive-time patterns
- Deployed an MVP on Vercel to test usability, gather early feedback, and iterate on user experience

Biotech Stock Screener

Workflow Automation

Villanova, PA

Jul 2025 – Nov 2025

- Engineered an end-to-end n8n automation pipeline that monitored clinical trial updates, news events, and technical indicators for small-cap biotech equities
- The automated workflow contributed to a 49.22% year-over-year growth in personal biotech portfolio performance
